In the last few decades A. Steffen AG has grown into an important electronics wholesaler thanks to innovation and know-how. Development of products and assortments as well as successful marketing measures have strengthened and advanced the company forward. Today, around 12,000 different electronic items, including numerous in-house products are stored on 6,000 palette slots.

For the **industrial and construction supplies sector** we provide a broad range of in-house products - as well as versions with the latest IP55 standard (info. on IP55 standard is available at <https://www.steffen.ch/de/produkte/infos-zur-ip55-norm>)

A detailed listing of all models is available on the following pages. Changes, mistakes, printing and typographical errors are reserved. Prices are visible only after login on our website.
